

# Simplify deployment and management of your HP Designjet printer fleet

## HP Designjet Universal Print Driver

Provide IT teams with greater control and effectiveness, reduce printer-related costs, and improve IT and end-user productivity with the HP Designjet Universal Print Driver (UPD). This intelligent single-driver solution radically simplifies printer deployment and management, saving time and freeing IT to focus on innovation. HP Designjet UPD includes two drivers—HP-GL/2 and PostScript—and supports a broad range of HP Designjet printers.<sup>1</sup>

### Simplify printing and management

- Remove much of the time and hassles associated with installing, updating, and testing multiple drivers

### Reduce fleet management costs

- Reduce costs associated with traditional print driver installation, updates, and testing
- Save money by reducing the amount of time IT must spend on printer integration, management, and maintenance
- Cut down on help desk-related costs with a simplified single-driver solution

### Focus IT efforts on innovation

- Keep your system up-to-date
- Transition IT resources from integration to innovation

Empower IT teams by dramatically reducing the number of drivers they have to manage. Give them the tools they need to improve efficiency and significantly cut costs. Simplify printing for end users and more effectively manage your overall fleet today.
