

Mutoh's Universal Bulk Ink System (BIS)

- Continuous ink delivery system for volume users
- Tuned to Mutoh Bio-Lactite, mild solvent, dye sublimation & direct textile printers
- Conveniently installable on top of the printer
- 1.2 liter ink autonomy per bottle
- Reliable and easy-to-use
- Suited for 4, 6 or 8 colour set-up

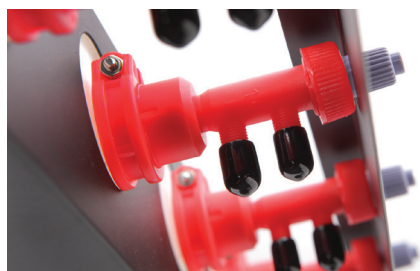

Mutoh's universal Bulk Ink System (BIS) has been developed for speed-intensive, volume-oriented users requiring a continuous ink delivery system. The Mutoh BIS has been tuned to Mutoh Bio-Lactite, mild solvent, dye sublimation and direct textile printers.

The BIS system consists of a 4 bottle bulk station and bulk ink cassettes. Each bulk bottle - equipped with either a dual or a single tubing connection - has an ink autonomy of 1.2 liter. Tubings will transport the ink from the bulk bottles to bulk ink cassettes mounted in the printer's cartridge slots. The bulk ink cassettes have a built-in floater level adjustment to accurately set the proper ink fluid pressure to the print head. Refilling of the ink bottles during printing is possible.

Depending on the printer type and the ink setup (4, 6 or 8 colours), a 4 bottle bulk station will feed ink into either 4 or 8 bulk ink cassettes.

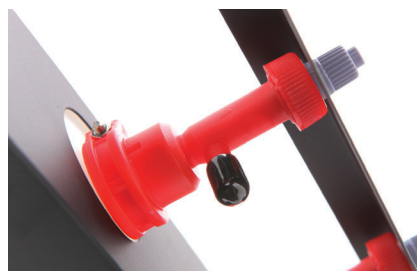

BIS – ZMY-08910

- Bulk station with tube protection bracket
- 4 bottles with dual tubing connection
- 8 bulk ink cassettes
- Ink tubing + accessories
- Connection cables
- Installation sheet

BIS - ZMY-08909

- Bulk station with tube protection bracket
- 4 bottles with single tubing connection
- 4 bulk ink cassettes
- Ink tubing + accessories
- Connection cables
- Installation sheet

System Setup / Compatibility

	Printer	BIS
